

Get into one of the hardest jobs the film industry has to offer!

As a successful producer of porn films, you have to trick your competitors to earn yourself enough money and to slide through the slippery goal as the winner!

A card game for 2 to 5 players.  
Duration of game app. 45 minutes.

## 1.0 Preparation – How to get started

Before you start, at least one of the players should have read *all* the rules. Shuffle the card deck and deal 5 cards to each of players. Each film producer gets 5 yellow money chips as starting capital. The remaining money chips are placed in the middle of the table. Yellow money chips are worth 1 credit, red ones 10.  
Each player gives his production company a flashy or kinky name.

## 2.0 Starting the game – actors get in your positions!

The horniest looking player starts the contest to produce the juiciest film. The other producers follow in a clockwise order. This order is then kept until the end of the game. If you play Project Pornstar more than once, the starting player changes at the beginning of every new game in a clockwise order.

- ★ Each player may produce only one film at a time, i.e. after the other.
- ★ All cards, that belong to the players' current film production, are laid out visibly in front of them.
- ★ You can also trigger the start of a production for another player, for example by placing a bad actor in front of them.
- ★ Cards that have been played should be visible to all players.
- ★ Try to keep the amount of money chips you have a secret.

## 3.0 Order of play – and action!

At the beginning of each game turn the current player brings the number of cards in his hand to 5. Then the player decides for one of the following three game actions:

<p><b>Place Cards</b></p> <ul style="list-style-type: none"> <li>★ The player can place a maximum of 2 cards! 1 Action Card (3.1) AND / OR Either 1 Actor Card (3.2) OR 1 Hardware Card (3.3).</li> </ul> <p><b>Change Cards</b></p> <ul style="list-style-type: none"> <li>★ Discard up to 3 cards from your hand and draw new ones from the deck.</li> </ul> <p><b>Finish a production</b></p> <ul style="list-style-type: none"> <li>★ Finish your current production (3.4).</li> </ul>
--

By finishing one of the three actions the turn of the next player in order starts.  
Every player should give a colourful explanation with every card he plays. This will stimulate a fun and relaxed gaming atmosphere.

### 3.1 Actions

Red Cards; symbol: movie clapper.

**Important!** To play an Action Card *always* costs the player 1 credit. Place it in the middle of the table with the others.

Action Cards influence the course of the game and can be crucial to who wins the game. You can find a detailed explanation of all Action Cards in chapter 5.0.

- ★ Players may place Action Cards on their own production as well as those of others.
- ★ The first card that is played to start your (or somebody else's) production can be an Action Card (for example Promotion Tour).

### 3.2 Actors

Pink cards (the girls), blue cards (the guys), purple cards (other actors; symbol: question mark).

Each of these cards shows the name and face of an acting member of a porn production

- ★ On the left hand side of the card are stars, which show the quality and points value of the actor. *Yellow ones* are positive, *black ones* negative.
- ★ Players can place an actor on any production on the table.
- ★ Each actor can only be combined with a maximum of 1 Hardware and 1 Action Card at any one time. If for example an Action Card is cancelled with the XXX Card, only then you may play another Action Card on that specific actor.
- ★ 15 actors show a yellow coin with a single letter (A, B or C) on the left hand side of the card. The effects of different combinations of letters are explained in chapter 3.4.

### 3.3 Hardware

Green cards; symbol: up yours!

On these cards you find the sex toys used by the actors during a film production.

- ★ On the left hand side of the card are stars, which show the quality and points value of the toy. *Yellow ones* are positive, *black ones* negative.
- ★ Each player can place a Hardware Card on any actor on the table.
- ★ Hardware Cards that show a sign for a man or a woman apply only to the corresponding gender of the actor.
- ★ The actors Super Dildo, Hasso and Sex Doll may not be equipped with Hardware Cards.

### 3.4 Finish production

**Important!** Players may only finish their production if it consists of a minimum of 3 cards (played on the table in front of them). These 3 cards must contain at least 2 Actor Cards or 1 Actor and 1 Hardware Card.

- ★ For every yellow star the player earns 1 credit.
- ★ For every black star the player pays 1 credit.
- ★ Letter combinations: 15 actors show a yellow coin with a single letter (A, B or C) on the left hand side of the card. If certain precise combinations as a total of all actors show up exactly in a production, the success of the production raises as follows:  
2 identical letters in a production = 2 additional yellow stars  
3 identical letters in a production = 5 additional yellow stars  
3 different letters in a production = 4 additional yellow stars  
If you have further actors with letters on their cards (for example A+A+B) the bonus expires! Actors without a letter do not affect the combination of letters. A Distribution-modifier multiplies the bonus points! Twins and/or a production bonus (3.41) are also possible within the same production.
- ★ Twins: The actresses Amber Saint and Ruby Saint are twins. Should these two show up in one production it upgrades the worth of the film by 3 yellow stars. A Distribution-modifier multiplies the bonus points! A letter combination and/or a production bonus (3.41) are also possible.
- ★ After the player has received (or paid) his money the cards for the production are discarded.
- ★ After the current production is finished the player can start a new one with his next game turn.
- ★ Should a film have to many black stars, so that the result is negative, the player has to pay for the deficit. If the player does not have enough money, the player is bankrupt and starts with a new production company (1.0) with the next game turn. As an optional rule a bankrupt player is removed for the rest of the game.

### 3.41 Production bonus

If a production is finished and contains one of the following card combinations, the player can claim an additional bonus. If more than one combination applies the player can choose the more attractive one.

- ★ Mixed Double: If a finished production consists at least of 1 man, 1 woman and 1 Hardware Card it gets 1 additional yellow star. A Distribution-Modifier does not apply to this bonus.
- ★ Gangbang: If a production consists at least of 5 men and just 1 woman OR 5 women and just 1 man are involved this piece of art gets 5 additional yellow stars. A Distribution-Modifier does not apply to this bonus.
- ★ Orgy: If at least 3 men and 3 women did their best in a finished production an extra of 4 yellow stars is granted. A Distribution-Modifier does not apply to this bonus.
- ★ Porn Classic: If a production is valued at 10 or more negative credits (without a Distribution-Modifier), it is so bad, that everybody wants it (for a laugh). The negative result changes to positive!

## 4.0 End of the game – Cut!

When the last card of the deck is drawn the game ends instantly after the respective player has ended his/her turn. Now all productions on the table that can be finished as described in chapter 3.4 will be valued.

The player with most credits wins the game! In case of two or more players with the same amount of credits each draws a card. The player with the most yellow or least black stars wins. Cards without stars count zero.

- ★ An alternative way to end the game is to set up a maximum playing time. The game ends for example upon the fifth 'money shot' in the video you have running in the background!

## 5.0 Action Cards

In this chapter you will find detailed explanations on every action card in Project Pornstar. To play an action card *always* costs 1 credit. If a player does not have any money left, playing an action card is not possible.

### AIDS

= Acquired Immune Deficiency Syndrome. Immune deficiency resulting from an infection with the AIDS virus. This card can be played on any actor on the table. The actor will infect any other person on the set and the whole production is cancelled. The player discards all cards from the production and can start a new film with the next game turn. The AIDS card is discarded as well.

- ★ If an actor is equipped with the Rubber Card (= Condom), the AIDS Card cannot be played on this production.
- ★ The actors Super Dildo, Hasso and Sex Doll are (for obvious reasons) immune to AIDS. The AIDS card cannot be played on one of them. If one or more of the three takes part in a production that is closed due to AIDS their card will also be discarded.

### Casting

The player may take an Actor (including attached Hardware) from any production on the table. He may alternatively take 1 discarded Actor from the stack. The chosen Actor Card can be placed on any production on the table. When that game turn is completed the Casting Card is discarded.

### Theft

This card can be played on any production. The player may choose a piece of Hardware from any set and place it either on any actor or in his/her hand. The card is discarded after use.

### Sloppy Porn

This card can be played on any production. The film is not finished yet and the critics have already screwed it. 2 black stars! Only one Sloppy Porn Card per film. After finishing the production (3.4) the card is discarded.

### Hacker Download

This card can be played on any production. Uncut Material got in the hands of ruthless hackers and can be found everywhere on the Internet. Bad luck, that's worth 2 black stars! Only one Hacker Download Card per film. After finishing the production (3.4) the card is discarded.

### Moneyshot Deluxe

This card can be played on any production. The production runs just perfect, the actors are highly motivated and the film is now rated plus 2 yellow stars. Only one Moneyshot Deluxe Card per film. After finishing the production (3.4) the card is discarded.

### Paperbag

This card can be played on any actor. As nobody can see the actors face anymore, nobody knows how good or bad looking he/she is. That's why this actor's stars do not count when valuing the production (3.4).

For example: Horst Hunchback is worth 4 black stars and gets the paperbag over his head. When finishing the production he now does not count 4 minus credits but 0.

Only one Paperbag Card per film. After finishing the production (3.4) the card is discarded.

- ★ Hardware Cards that are or get combined with this actor count as usual.

### Pornstar Deluxe

This card can be played on any actor. The actor got an important award and this boosts the rating of the current production! 3 additional yellow stars. Only one Pornstar Deluxe Card per actor. After finishing the production (3.4) the card is discarded.

- ★ Even if the actor is already equipped with a Hardware Card he/she can collect this award!
- ★ Should the actor have to go to the discarding pile, Pornstar Deluxe and any combined Hardware Card are discarded as well.

### Promotion Tour

This card can be played on any production. The actors have lots of public events and show all they have everywhere they are. Adds 2 yellow stars. Only one Promotion Tour Card per film. After finishing the production (3.4) the card is discarded.

### Director

This card can be played on any production. The director just finished his studies and is now highly motivated to give your porn film a cultural touch and to change it into a full-filling piece of art. If the player in question finishes this production the director's black stars obviously make it less successful. Only one Director Card per film. After finishing the production (3.4) the card is discarded.

### Distribution

This card can be played on any production. The player has found a highly professional distribution partner, which spends a lot of money on marketing and sells the film under its own label. Only one Distribution Card per film. The shown multiplier applies to the result when finishing the production. After finishing the production (3.4) the card is discarded. For example: The players production is worth 5 credits and has got a Distribution Card that multiplies by 2. The player now gets 10 credits for the film.

### XXX-Rated (Special action)

This is a Special Action Card. Any player can play it at any time to cancel any opponent's action. This includes the playing of an Actor, Hardware and Action Card as well as the finishing of a production (3.4) and the removal of a formerly played card.

- ★ An XXX-Rated Card can only be blocked by another one. The players can play as many XXX-Rated Card as the want (or have) until the decision is clear. The playing of an XXX-Rated Card costs 1 credit each.
- ★ If an Actor Card goes to the discarding pile its combined Hardware and Action Cards go with it!
- ★ The restrictions of chapter 3.0 do not apply for XXX-Rated Cards. Further to any chosen action in the player's game turn, as many XXX-Rated Cards as desired can be played – as long as you have enough money, of course.

A big (lubricated) hand goes to the hardcore test players: Chris Nord, Oliver Seitz, Oliver Lind, Nikki Wolf, Jan Konerding, Leonardo Chavez, Patrick Casper, Florian Kriesel, Ulf Schnittker, Markus Still, Mike Hofmann, Hendrik Nord, Florian Kunz, Klaus Koslowski, Klaus Willebrand, Lothar Haacke, Jörg Backes, Boris Riege, Falko Steinmetz, Jan Mathias, Benedikt Lutsch, Danilo Gabriele, Freya Greiss, Tristan Greiss, Sigrid Greiss.
